DANIEL SMITH Watercolor Sticks

"A Pan in Your Hand!"

DANIEL SMITH Watercolor Sticks are made with the same superior pigment and care as the DANIEL SMITH Watercolor tube paints. With the Watercolor Sticks you can paint and also draw with your watercolors adding new creative expressions!

DANIEL SMITH Walnut Ink

DANIEL SMITH Walnut Ink is a finely pigmented, sepia-colored, water-based ink made from walnut husks. It's great for all kinds of drawing, and works well with a dip pen or brush.

When used with calligraphy pens, our Walnut Ink gives a beautiful, transparent, warm tone to lettering.

DANIEL SMITH Masking Fluid

DANIEL SMITH Masking Fluid makes an impervious barrier to preserve the white areas of your paper by blocking watercolor washes from flowing into areas you don't want it to.

Our Masking Fluid applies as an off-white color and dries to a transparent caramel color so you can see it while working, and still be unobtrusive while painting.

<p>Iridescent: Reflection – particle of light hits paint/pigment matrix and bounces back. Much like a mirror. Interference: Refraction – particle of light enters the paint/pigment matrix and scatters light. Duochrome is one pigment that bounces between two colors. Pearlescent adds opalescence – like an opal or pearl – to the color it's mixed or glazed with.</p>
